

the bottom (down we go)

© Stephen Fisk/SOCAN 2009

down we go / skidding and sliding
sideways through sink holes / on eggshell surfaces
down we go / fighting and blaming
a maze of projections / deception's empty promises

need is blindness / signs we cannot hear / greed's implosion down ...

down we go / trashing and burning / mutinies of the moment / lost in translation

this debt that we're owing / luck that saved our skin

venture that we plundered / rackets we could spin

greed is our blindness / signs we do not hear / need's implosion down ...

seeds of indifference / breeding of fools / greed's destruction down ...

down we will go ... to the bottom of the bottom / to reap what we sow

down we will go ... to the bottom of the bottom / to reap what we sow . . .
